Subject: GOMA Comprehensive Planning Session Agenda and Request for Feedback
Attachments: 2018 All Hands CRRP Agenda & Discussion Questions.pdf; 2018 All Hands Coastal Resilience Agenda .pdf; CRRP Background Materials.pdf

SENT ON BEHALF OF JIM PAHL:

All,

Please find attached the final agenda for the Comprehensive Planning Cross Team Initiative session at the GOMA All Hands Meeting in St. Petersburg FL the week after next.

One of the primary agenda items for the session is an input session for meeting attendees to comment on what we should be moving towards regarding a GCAP (e.g. what to include or not include, etc.). Attached to this email is a document with questions we will be asking in that input session. If you will not be attending All Hands or even if you will but would like to provide initial feedback on a GCAP, please answer the questions in that file and email me at james.pahl@la.gov. Any responses received by close of business Wednesday, 6 June will be used to help seed the input session discussion, but I'll be taking input through the end of June. Please feel free to forward this request to other interested parties.

The agenda for the session this year is oriented around a project that GOMA has with the Department of Interior regarding the movement from the existing Gulf Coast Vulnerability Assessment towards a Gulf Coast Adaptation Plan (GCAP). Background materials, including the executive summary of the GCVA and GOMA's work plan for the DOI project, are attached.

Thanks for your attention on this matter, and I look forward to the team's discussions in St. Pete.

Jim Pahl
